Arabian Capital Partners LLC

Physical Precious Metals & Commodity Trade Finance

Physical Gold. Fixed Income. Sovereign Scale.

U.S.-Domiciled | LBMA-Certified | Monthly Distributions | Zero Fees | 14–20% Fixed Contractual Annual Yield to Investor

Arabian Capital Partners deploys capital into **physical precious metals trade finance** — acquiring gold, silver, and strategic commodities at wholesale or spot pricing, holding in **LBMA-certified custody** (Brinks / Transguard), and delivering to confirmed institutional buyers in Dubai and Sharjah at spot plus a 3–5% gross margin, completing full trade cycles in **3–5 business days**. A complementary **commodity-backed private credit tranche** extends short-duration secured loans collateralized by physical metals under LBMA vault oversight, generating additional yield without equity risk. Together, these two strategies produce a **Fixed Contractual Annual Yield to Investor** distributed monthly — with zero management or performance fees, and full investor principal backed by physical commodity collateral.

Rates are contractual — not projections, forecasts, or performance estimates. Fixed Contractual Annual Yield to Investor. Tiers fixed at time of subscription. Refer to PPM for definitive terms.

THREE MACRO TAILWINDS

Central Bank Gold Buying at 50-Year Highs

Global central banks purchased over 1,000 metric tons of gold in each of the past two years — the highest sustained pace in five decades (World Gold Council, 2024). Institutional demand is structurally elevated.

SWF Reallocation from Middle East Real Estate

Sovereign wealth funds across the GCC are actively diversifying away from real estate concentration toward liquid, yield-generating hard asset strategies with monthly income and defined liquidity windows.

U.S.-Domiciled Hard Asset Safe Haven

Geopolitical fragmentation is accelerating demand for U.S.-domiciled, physically-backed, dollar-denominated hard asset vehicles — a category with limited institutional-grade supply at sovereign scale.

Responsible Sourcing: *All commodity sourcing operates under LBMA Responsible Sourcing standards — covering conflict-mineral compliance, chain-of-custody documentation, and LBMA-certified re-refinery processing in Dubai — designed to meet the ESG due diligence requirements of NBIM and equivalent institutional frameworks.*
