6 MATERIAL DISCLOSURES

FINE ART — JP MORGAN CREDIT FACILITY DISCLOSURE

The Fine Art allocation involves the use of a third-party institutional credit facility with JP Morgan, utilizing a curated $541M fine art collection (curated by Elena Kohn / Sotheby's) as collateral at loan-to-value ratios of 30–50% on blue-chip works (approximately 70% of the art allocation). The remaining 30% consists of "red-chip" works targeted for sale within 120 days. Credit facility terms, availability, and LTV ratios are subject to JP Morgan's ongoing credit determination and are not guaranteed. The use of leverage in this allocation amplifies both potential returns and potential losses.

NO EARLY REDEMPTION

All capital committed to Quarter Horse Capital Partners LLC is subject to a full 3-year lockup. There is absolutely NO mechanism for early redemption under any circumstances. 100% of principal is locked until the expiration of the 3-year term. Investors must be prepared to have their capital fully illiquid for the entire 3-year period. Investors should ensure this term is consistent with their liquidity requirements before subscribing.
